To Whom it might concern

Letter of recommendation;

Hereby and with this letter of recommendation I, Primož Peterca CEO and owner of company Guardiaris d.o.o., certified producer of Military Simulation Systems within Slovenian MOD confirm a good standing of Mr. Ožbolt Menegatti as brilliant young computer developer and scientist.

Mr. Menegatti was a company as a grant recipient within years 2016 and 2017. During his final exams on university of Ljubljana, he was fully responsible for development of a most important part of new development system and integration of Intelligent algorithms of it into existing company 3D engine. Based on his development company patented a very important patent for future development and training of Military and Police personal.

His work results in a working prototype that was already shown to some customers.

Mr. Menegatti performed excellent job. His support is fast and effective due to his deep knowledge of Mathematics and Physics.

Warm regards

Primož Peterca
